

VILLAGE ROADSHOW PTY LTD

Village Roadshow Limited
650 Chapel St, South Yarra VIC 3141
Australia

Purpose of this letter: Employment Reference

This letter is to certify that Vanshika Kaul completed an internship with Village Roadshow Limited. The specific details of their internship are mentioned below:

Start Date: 10th November 2025

End Date: 23rd January 2026

Job Role: AI Engineer

Job Location: 650 Chapel St, South Yarra VIC 3141 (Village Roadshow Office)

Department: Information Technology & Telecommunications

Hours worked: 40 hours/week

Supervisor Details:

Reports to: Hemendra Dilipkumar Bhanushali

Designation: Senior Technology Business Partner

Contact Email: hemendra_bhanushali@vrl.com.au

Contact Mobile: 0422 468 147

Responsibilities and tasks performed:

- Developed and implemented workflow automation solutions using Workato, Power Automate, and Airia to streamline business processes and improve operational efficiency.
- Created Approval Process Automation project from conception to deployment, including requirements gathering, design, development, testing, and implementation.
- Designed and deployed an AI-powered Legal Contract Summarization solution leveraging Large Language Models (LLM) and Workato Genie capability to automate contract analysis and generate comprehensive summaries.
- Interacted directly with business stakeholders to understand requirements, gather feedback, and translate business needs into technical solutions.
- Configured and maintained integrations between multiple enterprise systems and applications to ensure seamless data flow and process automation.
- Conducted thorough testing and quality assurance on automation workflows, identifying and resolving issues during development and post-deployment phases.
- Collaborated with cross-functional teams through daily stand-up meetings and whiteboarding sessions to align on project objectives and technical approaches.
- Presented project updates and development progress during weekly showcase discussions, incorporating stakeholder feedback to refine automation solutions.
- Designed and delivered Lunch and Learn session on AI Hallucinations.

VILLAGE ROADSHOW PTY LTD

- Participated in Qlik training sessions to enhance data analytics and visualization capabilities for business intelligence reporting.
- Analyzed existing manual processes to identify automation opportunities and develop efficiency improvement recommendations.
- Collaborated with stakeholders to gather requirements, define success criteria, and ensure automation solutions aligned with business objectives.

Key Achievements:

- Successfully transitioned from academic environment to corporate setting, rapidly adapting to professional workflows and team dynamics.
- Delivered two complete automation projects within the internship period, demonstrating progressive mastery of the technology stack.
- Conducted knowledge-sharing session that enhanced team capabilities in automation technologies.
- Received positive stakeholder feedback during weekly showcases for quality of work and communication skills.

Vanshika demonstrated strong learning agility, technical aptitude, and professional growth throughout their tenure. She quickly mastered complex integration platforms and contributed meaningfully to our automation initiatives.

Kindly do not hesitate to contact me for any additional information.

Best Regards,

Hemendra Dilipkumar Bhanushali
